

Tungsten Carbide Tipped Holesaws

unika[®] Highest Quality Japanese Made
Tungsten Carbide Tipped Holesaws

METACORE

The tungsten carbide tip maintains excellent durability due to the ideal blade angles. The cutting angle design uses the latest metal cutting technology. The escape angle discharges shavings quickly for smooth snagfree cutting.

Light and Smooth
Speedy boring

Metacore Cordless 3.2mm Depth

For use with battery powered drills & low power electric drills (under 400w)
Suitable for steel (up to 3.2mm) stainless steel, aluminium, FRP, PVC & Plastics (up to 2mm) Effective length - 3.2mm
Ejector spring fitted as standard.
