

CHISEL & WOODWORKING TOOL SHARPENER

.....get sharp, and keep on working
Worksharp Provides 3 Ways To Easily Sharpen & Grind

1 EDGE VISION PORT

Using slotted wheels, the edge vision port allows you to see the cutting edge of your tools as you sharpen.

2 CHISEL & PLANE PORT

Offering precise & repeatable bevel angles with a simple "Plunge & Pull" motion.

3 TOP SIDE SHARPENING

Wide general purpose grinding & sharpening surface for sharpening larger flat blade tools.

Cutting Edge Technology for Woodworkers

The Work Sharp 3000 Wood Tool Sharpener is the sharpening and honing solution for the discerning woodworker and heavy hobbyist who want sharp tools quickly and easily. The Work Sharp 3000 Wood Tool Sharpener offers 3 ways to sharpen your tools: Top Side with Tool Rest, the Chisel and Plane Iron Port and the Edge-Vision Port. The WS3000 sharpens chisel and plane blades up to 2" (51mm) wide to a perfect 20°, 25°, 30° or 35° bevel angle without any set up time! It also allows you to sharpen a perfect 5° micro-bevel for even faster re-honing. The Work Sharp 3000 Wood Tool Sharpener also sharpens carving tools, lathe tools, scrapers, putty knives and more! Work Sharp uses a powerful 1/5 hp motor and produces a high torque max wheel speed of 580 RPM. Work Sharp offers an active air cooled sharpening port with routed air flow and heat sink design to quickly and easily sharpen your chisels and flat blades without overheating or damaging the steel.

This innovative, patent pending chisel sharpening port also uses a ceramic oxide lapping abrasive to remove the burr while you sharpen, making sharpening even faster! The Work Sharp 3000 Wood Tool Sharpener comes with 2 tempered double sided glass wheels (150mm) and one slotted Edge-Vision wheel and uses both solid and slotted adhesive backed abrasives so you can quickly and easily change between coarse and fine grits. Work Sharp uses 150mm premium Norton and Micro-Mesh abrasives in grits of P120, P400, P1000 and 3600 for a wide grit selection. This allows you to have 4 grits on your 2 glass wheels (one grit per wheel surface). The innovative Edge-Vision sharpening method allows you to see the cutting edge of tools while you sharpen, making sharpening of carving and lathe tools easier and more precise than ever before! Work Sharp provides slotted abrasives in P80, P400 and P1200 grits so you can coarse grind or hone all using the Edge-Vision method!

WS3000

PACKAGE INCLUDES

- Work Sharp 3000 Unit
- Edge Vision Slotted Wheel
- Tempered Glass Wheels x 2
- Top Tool Rest
- Premium abrasive kit including P120, P400, P1000 & 3600 MicroMesh adhesive backed abrasives, Crepe Stick, Additional slotted abrasives 80, 400, 1200 grit

Adjustable Top Tool Rest— makes freehand sharpening easier and more precise

Glass Grinding Wheel—150mm tempered glass wheel— provides a maintenance-free, always flat and true grinding surface on which to adhere PSA Abrasives

Skew Cam Adjustment— controls bevel-edge squareness

Sharpening Port— enables precise and repeatable angles of 20°, 25°, 30°, and 35° for chisels and plane irons up to 2" (51mm) wide

Innovative Edge-Vision™ Slotted Wheel— lets you see the cutting edge as you sharpen!

Dry Cooling System—routed airflow and heat sink system keeps tools cool without the mess of a wet system

Sharpening Port Lapping Surface— "plunge-pull" sharpening technique and Sharpening Port abrasive increases burr removal and speeds sharpening

580 rpm wheel speed— Powerful 1/5 HP Motor

ACCESSORIES & CONSUMABLES

Wide Blade Attachment

Allows blades up to 76mm to be accurately sharpened. Supplied complete with angle guide for fast, easy setup.

WSSA0002020

NEW RELEASE!

Belt Sharpening Attachment

Sharpen knives & other tools using a combination of the flexible belt & precision guide.

WSSA0002780

Available 2011

Felt Polishing Wheel

Polish your sharpened edge or tool body to a mirror finish. Now you can achieve that razor edge quickly. Supplied with polishing compound.

WSSA0002010

Leather Hone

Use the quality leather hone to strop your chisel to a fine edge. Supplied with polishing compound.

WSSA0002001

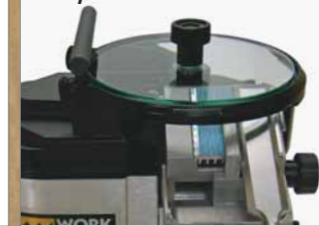

Surface Conditioning Wheel

Remove rust and tarnish from your old tools. Simple yet effective way to re-furbish your neglected tools.

WSSA0002011

Tempered Glass Wheel

Provides a maintenance-free, always flat and true grinding surface on which to adhere PSA Abrasives. Supplied with the WS3000.

WSSA0002023

Part Number	Description
WSSA0002002	Slotted Abrasive Kit Including 1 x P80, 2 x P400, 2 x P1200, 1 x 6000 Micro-Mesh
WSSA0002044	Micro-Mesh Abrasive Kit Including 1 x 3600 Micro-Mesh, 1 x 6000 Micro-Mesh
WSSA0002005	Coarse Abrasive Kit Including 2 x P80, 2 x P120, 3 x P220, 2 x P400 2" Square
WSSA0002043	Fine Abrasive Kit Including 4 x P400, 6 x P1000, 2 x P400 2" Square
WSSA0002029	Replacement Edge Vision Wheel to suit Worksharp 3000
